## Summary

Cybersecurity engineer with hands-on SOC monitoring, incident triage, and response experience from a fintech internship, driving incidents from detection through to resolution. Skilled in SIEM-based log analysis (Splunk), vulnerability/threat assessment, network security, and CVSS/OWASP-aligned reporting, with working knowledge of firewalls, WAF, and DDoS mitigation.

## Education

**Vellore Institute of Technology**

*B.Tech in Computer Science Engineering (Cyber Security and Digital Forensics)*

Sep 2023 – May 2027

CGPA: 8.14

## Technical Skills

- **SOC & Incident Response:** Alert triage, investigation, escalation & resolution; TTP tracking; SIEM log analysis & correlation (Splunk)
- **Networking & Security:** TCP/IP fundamentals, packet/traffic analysis, firewall devices, WAF concepts, DDoS mitigation, DNS, HTTP/HTTPS, SSH, RDP
- **Programming Languages:** Java, Python, JavaScript, SQL
- **Cyber Security Tools:** Nmap, Wireshark, SQLmap, Burp Suite, John the Ripper, OWASP ZAP, JWT, bcrypt
- **Web Development & Databases:** HTML, CSS, JavaScript, Node.js, Express.js, MySQL

## Experience

**Cybersecurity Analyst Intern — Zorvyn FinTech Pvt. Ltd.**

Apr 2026 – Jun 2026

- Monitored and triaged security alerts in SOC operations, investigating suspicious activity and driving confirmed incidents from escalation through to resolution to reduce response time.
- Conducted 30+ network and web app security assessments across 20+ endpoints and 500,000+ packets using Nmap, Wireshark, Burp Suite, and OWASP ZAP, validating 150+ findings per OWASP Top 10.
- Authored 30+ CVSS-scored vulnerability and incident reports with PoC evidence and remediation guidance, collaborating with 5+ developers to cut remediation turnaround by 30%.

## Projects

**CyberSecGuard — Integrated Cybersecurity Assessment Suite**

Mar 2026 – Jun 2026

[tinyurl.com/3uvf7map](https://tinyurl.com/3uvf7map)

- Found that analysts had to juggle separate, disconnected tools for network scanning, traffic analysis, and password auditing, making assessments slower and harder to track in one place.
- Built an integrated cybersecurity assessment suite (Python backend, MySQL database, HTML/CSS/JavaScript dashboard) combining an Nmap-based network vulnerability scanner, a Wireshark-based packet sniffer and traffic analyzer, and a bcrypt-backed password strength checker and secure vault.
- Consolidated three previously separate workflows into a single dashboard, giving analysts centralized, real-time visibility into scan results, traffic activity, and password security metadata.

**CuraBreast AI — Women's Healthcare Assessment Platform**

Oct 2025 – Dec 2025

[curabreast-ai.vercel.app](https://curabreast-ai.vercel.app)

- Interviewed 87+ women, primarily in rural areas, and found stigma and low health literacy were delaying breast-health checks and self-assessment.
- Built a full-stack app (HTML, CSS, JavaScript, Node.js, Express.js, MySQL) with a weighted risk-scoring engine across 9 clinical, genetic, and lifestyle indicators, a period tracker, a 10-hospital locator with booking, and an admin panel; secured with JWT auth, bcrypt, and rate limiting.

**N.E.S.T. (Neighbourhood Emergency and Safety Tool)**

Feb 2025 – Apr 2025

[tinyurl.com/3e73ny3z](https://tinyurl.com/3e73ny3z)

- Spoke with residents across 17 housing societies who found third-party complaint reporting slow, opaque, and gave no visibility into resolution status.
- Built a full-stack civic platform (HTML, CSS, JavaScript, Node.js, Express.js, MySQL) with role-based access for Residents, Admins, and Super Admins, and a rule-based priority-scoring system (0–100) to auto-escalate urgent complaints, cutting triage time by 50% across 100+ simulated cases.

## Achievements & Certifications

- **Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate** — Oracle (2025)
- **Google IT Support Professional Certificate** — Google Career Certificates (2026)
- **The Bits and Bytes of Computer Networking** — Google / Coursera (2025)
- Top-5 Finalist (200+ teams), Anti-Piracy Hackathon — WAVES Summit, MSME, Govt. of Maharashtra
- National-Level Multi-sport Athlete — Represented university in basketball and swimming
- Vice President, Metaversity Club — Led a team of 23 members, organized 5 tech-talk events, and increased club participation by 40%
